Customer Reviews

My mom has been wanting a People Magazine Crossword book for awhile so I thought I'd buy this for her. Unfortunately (my fault I suppose for not realizing it had multiple types of puzzles), it wasn't just a crossword puzzle book. It also has word searches, spot the difference, a type of Sudoku, jumbo crosswords, trivia, and one other sort of crossword. They look entertaining enough, even though some of the puzzles come with very few directions. My mom seems excited about it though and the level of difficulty of the crosswords seem to be on par with normal People Magazine crosswords. If I need to, I'll post an updated review if she has something to say about it or if she becomes uninterested with it.

I love the people crosswords but now that I get the digital subscription I don't get them anymore. I have been wanting this for awhile and finally decided to get it. I was not disappointed. It has different puzzles in it. I prefer the crossword but enjoy a different challenge now and again. It is a older book which is good for me as I am not as up on the new celebrity's. Will definitely be looking into getting the other ones once I finish this one!

I really enjoyed the book itself but I was a little disappointed that it doesn't tell you before you buy it that the puzzle date is from 2009 so it's pretty old along with older puzzles, I still enjoyed doing them but I'd like to have something more up to date but none of the books for sale tell you what year they were published

When I am home, I realize there is not much on television these days. I can only find a few new shows that I enjoy and how many times can a person watch reruns. So, I dig into these puzzler books from People and I LOVE THEM. I think at this age, it is keeping my mind sharper than most and I watch less of the boob tube. They do arrive at the home of the buyer quite fast, which I enjoy. I am waiting for one more to be mailed to me as it is back-ordered. does give me updates when or about when to expect the book.

Fun puzzles

The book was exactly what I expected and not used. I am currently doing several of the puzzles every night now.

Great Experience!!

I believe this book is from 2009. Works perfectly for me because I am not familiar with today's current crop of "stars"--- thus I am more likely to be able to fill in all of the puzzle. Kind of frustrating when you get the answer and you still don't know who that person is.
