This book is great if you want to hone your cello skills to something fun and that sounds familiar, especially if you love Phantom. Just take heed, this is not a score, by any means. There are errors, but they are apparent until you hear the correct version straight from a real score. I was pleased with the songs, nothing I wanted was missing. In general, it is a pretty easy book; I learned "Music of the Night", after about a month of lessons, but was not ready for the rest yet. I look forward to tackling more of the songs, as my skills with the cello increase!

The only legit sheet music from Phantom you can get, so hard to compare it. Most pieces are easy to play, but there are some spots I wish they'd include suggested fingerings. Doesn't hurt to get the practice figuring it out yourself, though.

I love this book absolutely amazing the music is great and I ended up playing a song from this book for my solo in a competition and won 1st place and a gold medal this book is not really for beginners alot of very high notes and shifts in allot of the song.

Most of this book is within the skill set of the average cellist, and some of the pieces are challenging enough to be interesting. Writing in keys that give the cello a beautiful voice. I am really enjoying the arrangements.

The songs are slightly shorter than the theatrical version so singing along won't always work perfectly for each song. A few songs are great for beginners!

Easy to play and all the pieces are very recognizable. Understandable and a lot of fun to play. Bravo, Bravo.

If you loved The Phantom of the Opera and you're looking to play the music from that amazing musical, this is the song book for you and your cello. It's exactly what it says it is and the songs are a lot of fun to play and sing along with, if that's something you like to do.

Great music for beginning/intermediate cellist. As a plus, it's not a piano music book with a cello music insert. The book is actually cello music.
