## Customer Reviews

This is a great map of St. Louis if you're interested in the downtown area, Forest Park and the areas near it, and a few of the closer suburban areas like Clayton and University City. The level of detail is great, it's easy to read, and the stiff folding format is much easier to handle and more durable than traditional paper maps. So this is a great map to keep handy for touring or if you live in these parts of the city. For areas farther west or out of town in other directions the small scale map on the reverse isn't detailed enough to be really helpful.
