Customer Reviews

This E-book was pretty much useless for my purposes. I am an advanced crocheter, but have never sold any of my completed projects. First of all, this was not a well written book. There were many mis-spelled or wrong words, i.e., instead of using the word "sale" the author chose the word "sell", I don't know if it was a typo or the author just didn't know which word to use! The author also didn't seem to know much about the craft either. For instance, she referred to using "knitting machines" to make "crocheted" items! Duh.. doesn't she know the difference between knitting and crocheting?! The ONLY useful info in this entire (short) book was about what websites to use for advertising help, or to get your website noticed online. If it wasn't for these few tips she included, I would have given this book only one star.
