Customer Reviews

Three dimension reproduction of Medvail castle. an exploded view that allows the reader to explore ,through a very well engineered construction, the inner life of a medevil castle...Very Well Done,

The book isn't just easy on the eyes. (I mean, it is...who wouldn't love to look carefully at all the details...) But it's more than that. More than a toy. It's packed with information. Information just waiting for curious readers to absorb.The book provides ample information on castles--why they're made of stone, the best locations to build a castle, etc. Including two-page spreads on the gatehouse, the Lord's men, the armory, daily life, inside the castle, on the attack, the great hall, the book has it all and more. And these details aren't overwhelming, everything is so reader-friendly.
