## Customer Reviews

Donna Phinney was a Certified Dental Assistant and Program Director for the Dental Assisting Program at Spokane Community College. Recently deceased, she devoted her 20-year career to the dental field as a dental assistant and office manager, and later to consulting and teaching. She earned her BA from Eastern Washington University and MEd from Whitworth College. Ms. Phinney was a fellow of the American Dental Assistants Association, where she served as a consultant and an appointed commissioner, as well as an active member of the Washington State Dental Assisting Association. Judy Halstead, CDA, BA is the former Dental Assisting Program Director for a private college and a high school skills center. Now retired, she also worked as a dental assistant, and an enthusiastic industry representative for more than thirty years. Serving as a president of the

Washington Dental Assistant Association, Ms. Halstead often delivered lectures and workshops at local, state, and regional dental conferences, and acted as an industry consultant. Ms. Halstead earned a BA from Eastern Washington University, and is a Certified Dental Assistant with an Expanded Functions certificate.

Very good book, has pretty much everything in it I needed. I have been a DA already however had been out of it a while when my son past away. I felt I needed to be refreshed before going back and this helped me a lot.

So, I thought when it added "(with study ware)" the workbook would be included. Pretty disappointed.

I liked everything' about the book

Good condition

Supper happy.

This text was required for the Century College Dental Assisting program. Thankfully, they keep the same 2 books the entire 2 years of the program. However, both Modern Dental Assisting and this book (we call it Delmar) have basically the same information. MDA is easier to read, has more step-by-step procedures detailed out with photos and is the primary choice for all of the subjects we cover. This text does a better job of detailing the contents of dental cements, but in the end it is more important we know how to mix these cements then know all the ingredients they contain. I sincerely wish the professors could get permission to take what few chapters they feel Delmar does a better job of covering, put them in a binder and let us use that instead of each of us purchasing this book that we mostly ignore. If I did not know about MDA, this book would be fine but since I do know about Modern Dental Assisting, this book is just collecting dust.

Wrong book not what I was looking for.

I got the dental Assisting textbook. But I spent about 200USD in buying and clearing the book from the customs and DHL. It left me broke as a student.
