Customer Reviews

Let Wild Idaho be your comprehensive guide to more than thirty roadless recreation areas in the state. With more than four million acres of wildlands, Idaho offers unparalleled opportunities for solitude and exploration. Discover the inland rain forest of the Salmo-Priest, the sand dunes of Bruneau Dunes State Park, the peaks and alpine lakes of the Sawtooth Wilderness, and more. Each carefully researched profile includes: a map showing major roads, trails, and access points; an overview of the landscape and its major features; a description of local recreational opportunities; suggested excursions - day hikes, backpack, overnigher, cross-country ski, or river trip - with detailed information on how to get there, what you'll see, and when the best times are to go; at-a-glance information on location, size, and management status. In addition, you'll learn how to protect and preserve wilderness areas, plan a safe trip, and prepare for natural hazards. Wild Idaho will show you the best recreational opportunities for exploring the diverse landscapes and unspoiled beauty of Idaho's wildlands. (6 x 9, 192 pages, b&w photos, maps)

This book is at best a reference that must be used in conjunction with another book, or better yet,

Forest Service maps. While the author does point this out, I feel that several necessary details could have easily been included in this ...book, but were not. For example, elevations are not included, reference maps are far too vague, hiking difficulty ratings are there, but are less than accurate; and when a road that must be traveled for 17 miles to get to the trailhead is very close to 4-wheel terrain, it should be noted so (fortunately I was in my 4-wheel truck). Also, if signage to the trailhead is poor, or non-existent, better instructions on finding it are in order. And the trail I'm referring to is one of the most traveled in Idaho. I later found that Falcon's 'Hiking Idaho' did a much better job making up for 'Wild Idaho's' shortcomings. Problem is, the former doesn't cover all the same hikes.
