Customer Reviews

RPG Book

I think a good source book is one which can be used by a storyteller regards of when/where your own story is set. While I could use of the information here for history or for lost artifacts, I was disappointed by the rather sketchy nature of the information in the book. It does give you good historical background and some more information on older clans. The mystically items have potential.

These books help my friend in his role playing games. Thank you soo much for using .com Have a great day!

Words can't describe the usefulness of this book. It is truly one of the most magnificent sourcebooks White Wolf has published in that its form is simple, but gives a vast amount of information. The primary resources in this book are its design-a-fief chapter, its notes on the Tremere's Gargoyles, and its relics. Though it is, essentially, a rule book supplement, it gives insight into several "historical" stories, including the diablerie of Brujah by Troile. Do you need this book to play a game

of Vampire: the Dark Ages? No. Do you need it to run a serious chronicle? I say yes. An "authentic" city gives your game the flair it was meant to have.

This book is a required tool for any Dark Ages Story Teller.

My freind has this book and I barowed it from him for a few days.It helps me all the time when I'm the story teller.
