Grade Level: 3 - 7

Customer Reviews

So, I bought this book for a program where parents come and talk to the class at my son's school. Salvador Dali was one of my favorite artists in my youth. I liked the elephants with the really long legs the best. That image is not in this book. What IS in this book is discussion of how Dali's brother died and his parents treated him as though he was his brother. A lover's tryst. And, a reference to Hitler. Let's just say I was mortified while reading the book to the class. No, no, no!! expected a highly rated Scholastic book to be child appropriate without controversy. What I got was a weird book about a weird guy whose elephants I don't even like anymore.

My 9 year old girls loves these books. They have truly sparked an interest in these types of historical figures at a much earlier age than I was when I started learning about them.

We got this book for our daughter to read before going to the Salvador Dali Museum in St.

Petersburg, FL. She loved the book (and the museum) and has asked to get other books in this series to learn about other artists.
