Five Little Monkeys Reading In Bed (A Five Little Monkeys Story)

Synopsis

After their mama reads to them, it's bedtime for the Five Little Monkeys. But they can't resist reading just one more book . . . or three! Soon Mama is so tired of trying to get her monkeys to quiet down and go to sleep, she picks up their books and takes them with her. At last, the monkeys are ready to settle down . . . until they hear strange sounds from down the hall. Could it be that Mama likes to read in bed too? This playful addition to the Five Little Monkeys series features a lively rhymed verse and catchy refrain that's sure to keep young readers chanting along.

Customer Reviews

"Reading promotion at its best, with a little bit of bad behavior to spice things up."
•Kirkus "They [children] will continue to be delighted, as this time the monkeys turn the tables on their mother at the conclusion of the tale."
•School Library Journal "The interactive text is fun for reading aloud, and the digital line-and-wash illustrations perfectly capture the little monkeys' zany glee."

There may not be a child in the U.S. who has not sung the song: "Five Little Monkeys Jumping On the Bed." Children enjoy the nonsense and laugh as the monkey's get bumped on the head. This book is just as fun. My young grandson has requested that this book be read over and over at his bedtime. Those five silly monkeys reading and reading are so encouraging to the young reader. I think this was a happy purchase and would recommend the book to anyone who has a little preschooler or early reader in the family. I have had as much fun reading the story to my grandson as he has had fun in hearing it read. We also both enjoy the book's illustrations.

We have another Five Little Monkeys book. I have read them so many times that I know the words by heart. My daughter is obsessed with these books!

We are big fans of this entire series and this one in particular is great for a bedtime read. The illustrations are amusing to my toddler and he loves seeing what mischief the five little monkeys get into with each story.

It's a book

My grandson loves the Five Little Monkeys books. We have to tag all the monkeys with names- he is always the monkey in blue, his sister in pink, then cousins for the rest.

Bought this since my little one loves the Five Little Monkeys (jumping in bed) version, but this story is a bit strange and not as catchy as the other one. This is her least favorite book and she pretty much loves all her books.

I have and love all the "Five Little Monkeys". I read them constantly for both of my Grandchildren, ages 5 (boy) and almost 2 (girl). These are and have been the books of choice for both of them. With the repetitive, rhyming words, we all have fun reading them!

My 2-year old grandson loves the Five Monkey books. We have several and read them daily. Fun books!
