Customer Reviews

I ordered this book because, of course, I am trying to become a wedding planner. I felt that this book was very insightful because of its depth of information given. I feel like after reading this book, I am ready to start my wedding planning business!! I highly recommend this book to anyone who is trying to get in to the wedding industry!

just got it sunday

I am not certain of my review on this book. It was purchased for my girlfriend who has ideas of becoming an event planner.

I'm still finishing this read but it covers so much area in just 200 pages!! The author did a great job writing this book compared to other authors I've read. Every chapter is detailed and clearly lays out things you need to ask yourself and where to go from there if you're going to be serious and successful! I also love how many references, resources and sample plans she includes in the book. Overall a great buy if you're curiously or seriously considering making this your profession.

This is a very good book explaining the basic ins and outs of wedding planning from home. There is a lot to consider. The writing can be dry at bits and some things are often repeated (though this is likely because the book can be used as a whole or on a chapter-by-chapter basis). Overall, extremely helpful for beginners and those considering the business.

This really broke the home based wedding planning business down to work in the average home. How to balance the fact that you don't have actual overhead of an office but the overhead of taking care of your family and your clients all from your home office is essential for anyone considering this business plan.

Packed with Detailed Information. I Highly Recommend this publication.

This books informs and teaches, serving it all up in a easy-to-understand way. It has become my "wedding planner bible" so to speak, and I carry it with me, highlighting passages that detail what I need to remember to do when I reach that step during the process of getting my business off the ground. Awesome book!!
