Fahmida Y. Rashid is a journalist based in New York City where she writes for consumer and b2b publications on gadgets, security and networking. She also writes for various outlets on books and travel. She loves to travel, and particularly enjoys train trips, including the bullet train through Japan, and the Euro Rail through Italy.

When planning for a trip I like to read some travel books, as well as explore the web. I live in MD and had a hard time finding books specifically on MB. This one is a nice, comprehensive look at the area, especially for someone who has not been there before. The only thing I would add is more maps. I would have liked an area map and a street map. Other than that I thought this book gave a nice picture of MB.

I purchased this book because my husband and I are looking to purchase a home in the Myrtle

Beach area. On the positive side the book was informative. The negatives were.. the print is very small and hard to read and the map is useless. There was only 1 map and it was not detailed at all. The print is also very small, I even tried to blow the map up on a copier! For these reasons, I am rating this book as ok.

This Book/Guide is Very Well Written & Informative! Use It Well In Your Travels...
