Contemporary Human Geography (2nd Edition)

Synopsis

Contemporary Human Geography is a beautifully crafted, modular springboard into essential human and cultural geography concepts, designed for the contemporary geography student. This brief, innovative text explores current human geography in the bold visual style that distinguishes Dorling Kindersley (DK) publications. Topics within each chapter are organized into modular, self-contained, two-page spreads. Together with the graphics, Rubenstein's efficient writing engages students, presenting information clearly without sacrificing the high-quality geography content essential to students and instructors.

Dr. James M. Rubenstein received his PhD from Johns Hopkins University in 1975. His dissertation on French urban planning was later developed into a book entitled *The French New Towns* (Johns Hopkins University Press). In 1976 he joined the faculty at Miami University, where he is currently Professor of Geography. Besides teaching courses on urban and human geography and writing textbooks, Dr. Rubenstein also conducts research in the automotive industry and has published three books on the subject, *The Changing U.S. Auto Industry: A Geographical Analysis* (Routledge); *Making and Selling Cars: Innovation and Change in the U.S. Auto Industry* (The Johns Hopkins University Press); and *Who Really Made Your Car? Restructuring and Geographic Change in the Auto Industry* (W.E. Upjohn Institute, with Thomas Klier). His text *The Cultural Landscape* is the bestselling text for both AP and college human geography classes. Originally from Baltimore, Rubenstein is an avid Orioles fan and an artist whose paintings are displayed at local galleries.

Product received in just an envelope curled up in my mailbox. Will not lie lie flat. Ridiculous for a \$130 book. I am very unhappy. I can't return it as my class begins in just a few days. Book should have been shipped in a box. This is a reference book that I intend to have on my desk for a long time.

Required book for a college course that is now requiring a new book to be purchased with a one-time-use access code. It seems that publishers are finding new ways to avoid sustainability and circumvent the used book market by making colleges assign these new book bundles. I am glad that some professors allow students to choose whether or not they want to buy the bundle, which includes some extras including study guides, or opt out and buy/rent the used books and save money. At NVCC in Manassas, every class this semester "required" the access code bundles at \$150-278 a book. Multiply that by 6 classes and you get a cost-prohibitive situation for most students. I was glad that find this book as an inexpensive rental, and I'll go the extra mile and scour the book for my answers and make my own study guide. If it costs me a half a grade or more, it may be worth it to be able to afford college.

Works great for my geography class. Virtually the same as newer versions.

Book I received was as listed, easy to read. Arrived on time. Would recommend to my friends.
