The Greenleaf Guide To Ancient Egypt (Greenleaf Guides)

Synopsis

Ever wonder how biblical history and ancient Egyptian history fit together? Why was God so angry with Pharaoh, anyway? These were questions we asked when we began our study of Ancient Egypt. We wanted to start our study of Western history by beginning at the beginning. After reading through the Old Testament (which is history, after all) we study ancient Egypt. The Greenleaf Guide to Ancient Egypt presents ten lesson plans, using the six books listed below. Included are vocabulary lists and discussion questions drawn from the reading. Also included are directions for playing a checkerslike game found in Tut s tomb, directions for building a model shaduf (irrigate like the Egyptians!), as well as suggestions for how to adapt your study to fit grades 2-7. Home school tested. Excellent for Konos or Unit studies. Average duration is about 15 weeks. "An absolutely enthralling introduction to this time period." - Mary Pride

Book Information

Series: Greenleaf Guides

Paperback: 46 pages

Publisher: Greenleaf Press (TN) (January 1, 2007)

Language: English

ISBN-10: 1882514009

ISBN-13: 978-1882514007

Product Dimensions: 8.5 x 0.1 x 11 inches

Shipping Weight: 6.9 ounces (View shipping rates and policies)

Average Customer Review: 3.9 out of 5 stars 8 customer reviews

Best Sellers Rank: #1,284,217 in Books (See Top 100 in Books) #73 in [Books > Children's Books > Education & Reference > History > Middle East](#) #122 in [Books > Children's Books > Education & Reference > History > Africa](#) #1069 in [Books > History > Ancient Civilizations > Egypt](#)

Customer Reviews

Cyndy Shearer has a BA degree in English (summa cum laude) from Queens College (Charlotte, NC) and an MA in English from the University of Virginia. She has taught elementary, high school, and college students and home-schooled all eleven of her children. Cyndy and her husband, Rob, live near the town of Lebanon in middle Tennessee in the home where they raised their eleven

Ã Â- children. They are the founders and co-directors of the Francis Schaeffer Study Center in Mt. Juliet, TN, where Cyndy teaches literature, and Rob teaches history to homeschooled high school students.

I started using this for a homeschool study of Egypt for my K and 1st graders, but after a month have put it aside. I love the Christian perspective and how it is incorporated into the discussion, and I think this guide is great to help put together a unit study, but it does require a lot of teacher time for preparation. The guide has suggestions for vocabulary, activities, discussion questions, and other resources. My biggest difficulty is that a main supplemental book, *Pharaohs of Ancient Egypt* by Payne, is too advanced for my young students. I would read it (I like it!) and paraphrase, but my kids were not interested. And as a read aloud, no way - it's above them. Many of the other suggested resources are very good, but too much of this study relies on *Pharaohs*. In short, I would recommend this for a homeschooler of students anywhere grade 4 or up, provided you have time for preparation and time for projects. If you're willing to put in that effort, I'm sure this guide would be great.

great book and received quickly after ordering

We enjoyed using this guide in our home school. There are a few Bible references included, as well as mentions of Bible stories. The "extras" alone would be worth the price of the book: projects, such as a model of a shaduf, the game of Senet; timelines and extensive vocabulary lists, and the bibliography .

This book is a hoot. I read a review not long ago by a reader who bought it thinking it was a history text. What it's really meant to do is help you organize your children's study of Egypt utilizing other resources. And this it does very effectively. The *Greenleaf Guide to Ancient Egypt* makes use of four primary texts (Elizabeth Payne's *The Pharaohs of Ancient Egypt*, Tony Allan's *Time Traveller Book of Pharaohs and Pyramids*, Angela Wilkes' *Deserts*, and David Macaulay's classic book, *Pyramid*). The Guide helps the parent/teacher assign and coordinate the children's reading, suggests additional resources and describes various hands-on projects. My kids' favorite activity came during Lesson One-The Geography of Egypt, when each of them made a colored salt map of Egypt. The instructions were clear and flexible (trust me--a boon to busy homeschool parents!). The children also enjoyed making a giant backyard shaduf (you'll have to read the book to know what that is). Last night, as I was re-acquainting myself with these materials, my 12-year-old daughter said,

"Dad, can you find any more fun stuff like that for our history?" "What more can a teacher and parent wish for?"

As a history teacher and homeschooling mom, I always look for ideas to give my students to enhance their study of the era or place. This is a wonderful supplement to any study of Egypt for all students. The Christian emphasis provides an added dimension and allows the students to incorporate the study of the Biblical accounts of Egypt into the study. This is highly recommended for a well-rounded approach. The guide also includes wonderful supplemental readings.

I love the approach of this book. My daughter is 10 and we have enjoyed learning about the ancient Egypt history. There are lots of activities suggested in the book that truly make the history come alive and sink in.. I would recommend this book very highly.

The book is very text-like in its approach and presentation. The material seems to be written as a supplement for bible study. It also has a decidedly fundamentalist Christian slant which the authors are not shy about sharing, so be prepared for that. We found the most useful part of the book to be the bibliography - to suggest other books that might be closer to what we're looking for.
