San Diego County is vast and complex. Rather than look at a few miles at a time on a small GPS screen, why not get the big picture with our clear, concise, easy-to-fold San Diego Road & Recreation map? --DP, GP Maps

Great Pacific Maps Principal David Peckarsky has been researching and publishing maps since 1978. A native of Milwaukee, WI, Peckarsky earned a BS in Architecture & Urban Planning at the U

of Wisconsin Milwaukee (UWM) in 1974 and a Masters in Environmental Studies degree from York University in Toronto, Ontario, Canada in 1977. Based in the Seattle area since 1978, Great Pacific Maps reflect the imagination, hard work and dedication of collaborating with two close friends over a 30+ year period: Wayne Hom of Seattle and Bob Lindquist of Bellingham, WA. Sadly, both have passed on; may their memories always be for a blessing. Today, Great Pacific cartography is most ably done by Sharon Iwai of San Francisco and Robert Kemp of Joseph, OR. Cover designs and some cartography are done by Dennis McClendon of Chicago CartGraphics (in Chicago, of course!). Your business and your feedback is always appreciated! E-mail us if you find an error or omission; we will verify it and mail you a free Great Pacific map of your choice. We appreciate your business! Since 1978, we have sold well over a million maps! Great map. I keep it in my motorcycle for those times I just want to go off on a local ride somewhere I haven't been yet.

Good quality map

This map was very detailed and helpful. It was exactly what we were looking for to help us plan our daily activities on our trip to the San Diego area.

A map with attractions! Great idea and helpful if you are looking for something to do nearby. Wish they had one for other cities!

Nice map

Works fine, shows all the parks in town, which is why I wanted it. We use it to take the kids on adventures to find new playgrounds.

Great Map. Very helpful to find thing in relation to others when you are new to the area.

We needed a map of San Diego for our vacation and it's hard to get one if you live far away. This proved to be the easiest way to get the map we needed.
