## Customer Reviews

Just like the stars they write about, AstroTwins Tali and Ophira Edut are perfectly aligned and in sync to what the men of the Zodiac are all about! So often, one hears about how challenging it is to understand women, but THANK GOD these awesome astrologers demystified and debunked these Mysterious Men--and I'm not just talking about those sexy Scorpio Men!!! Speaking of sexy, the AstroTwins' delightfully lascivious-yet-clever wit is most transparent in their "Sex With An \_\_\_\_ " sections. With catch phrases such as "He's a mountain man AND a mountin' man" and priceless, need-to-know information on how these men like to get it on, you'll be cracking up AND feel intrigued to read on. Finally, we can get inside their head(s)!!! ;)

I don't particularly invest in astrology but this was a very fun read. I enjoyed the amount of detail given to each of the zodiacs. I like the way they exposed both the positives and flaws of each sign, and never suggested that a woman should change herself in order to have a relationship with a particular sign. The section in the beginning of the book detailing how one of the authors managed a relationship with a sign not particularly compatible with her own showcased their philosophy on understanding the sign and keeping an open mind. Two of the most hilarious sections: what to mourn when you break up with a particular sign, and what to applaud when you break up with a particular sign. Good job overall, well-written, easy to read.

Spot on. Has helped me connect with signs I usually don't jive with by learning about them and being able to kinda see how they see things, and if necessary, changing my vibe so it's more like the kind of girl a sign is attracted to and it actually works! one can only change yourself so much, but

at least it gives you time and chance to really feel each other out. However, i don't just base things on sun sign, I play it by other signs in their natal chart depending on the type of interaction with the person -- with a few adjustments and common sense, you can apply the key stuff about a sign to help with other kinds of relationships not just boyfriend/girlfriend.

I first became interested in astrology in my teens (I am now in my mid-to-late twenties), and have read many books based on the subject. One of the things I've noticed is that many of the best books on astrology (Linda Goodman, Liz Greene, etc) were written in the 1960's and 1970's. I'm not saying this makes them "out dated" in any way, but more often than not, when I read older publications, it's a bit of a stretch for me to apply some of the scenarios presented to my current day-to-day life. The "AstroTwin's Love Zodiac" is one of the few modern astrology books I've found that takes the essence of each sun sign male and makes it relate-able. They draw on their own experiences with each of the 12 signs, as well as the experiences of their friends. I also particularly like how they have the chapters on each sign broken down. They take you through each stage of the dating/mating ritual and tell you more or less what to expect. All in all, a very good read.

I have several, several astrology books and I have never fallen in love with a book like I have this one. I found the book from a general web search and looking at the different compatible site. You might think that the price is not worth it as some books I have the section is not very long and you are left with a lot of questions. I am not going to say that I didn't still have some (but that is astrology for you) but this covered stuff that I have used and it has been accurate (life saver for blind dates). I just wish they would have done like other books and did a moon and planet comparison.

These guys write great books, and I love, love, love this one. Even though I try not to base my relationship decisions solely on astrology, I love finding out a potential's sign and reading about it, and so far there have been many correct aspects to the profiles. A fun and interesting read!

I just love this book. I give this as a gift because it's very informative. Ladies, you really need to read this book.

Amazing, Goddess Tail knocked this one out the box! I highly recommend this book!
