Customer Reviews

I really enjoyed reading this book. It's informative, funny and very easy to read. I learned a lot about Taiwan, its complex history, customs and what it's like to be an American expat living in that country. I loved the section about food and the author's willingness to try different kinds of food which may not always appeal to American tastes. Taiwanese traditions such as the selling and brewing of tea, ghost month, the lunar calendar and other traditions are explained. There is a chapter on Disability in Taiwan which would be very helpful to anyone who wants to travel and has mobility issues. The author needs to use a wheelchair most of the time but it has not kept him from doing a lot of sightseeing in the country. There are lots of tips on how to adjust to this particular

culture and it seems that the author and his family have done that very well. I hope there is a sequel to this book. I'd be interested in how the author's teen-age daughters adjusted to living in a different country and how they perceive Taiwanese teen-agers.

The author is surely a nice person but this book is poorly written and repetitive. I don't recommend it to you.
