The Prevention Of All Cancers

Synopsis

Cancer can be cured, not just treated. Kill the malignancy-causing parasite and the tumor-causing bacteria. Learn the dietary triggers for each oncovirus that immortalizes your tumor cells. Outwit RAS, MYC, NEU, SRC, SV40, JUN, and FOS with diet. Follow a tester's protocol that guarantees success. Get your immunity back with electricity: zapping, plate-zapping and homeography make it easier than ever to find your health again. Learn the single epidemiological factor that destroys your immunity. Avoid it and live free of rare diseases, inherited diseases and cancer. Cancer has many contributors but the main actors form a single chain of events. Pull out one link and the whole cancer process is blocked. This kind of prevention is more powerful than a cure. You can get started now! …for your pets, too.

It took an independent research scientist to find the answers. Hulda Regehr Clark began her studies in biology at the University of Saskatchewan, Canada, where she was awarded the Bachelor of Arts, Magna Cum Laude, and the Master of Arts, with a High Honors major in Biology. After two years of study at McGill University, she attended the University of Minnesota, studying biophysics and cell physiology. She received her doctorate in 1958. In 1979 she left government funded research and began private consulting and her own research. These are her results. --This text refers to the Paperback edition.

items is perfect just as described .

This 621-page wonder work shares the secret of kicking disease to the curb. This work builds on research done earlier and shared with the public in Clark's previous cancer and disease books, and for a complete understanding of the subject, the earlier volumes are nice to have around, also. The author--Hulda Clark--absolutely, positively, knows her stuff! Packed with effective information, research results, equipment plans, and techniques for returning to normal health. Should be required reading in medical schools, even though it is geared toward the layman. Highest recommendation.

My mom beat breast cancer 16 years ago doing Dr. Clark now that I have cancer I am following her protocol also. She was an amazing humble woman who only wished to help others.

i like hulda clarkes work

The Prevention of all Cancers .. very informativ !
