"Forget Allegories and Metaphors - Michael Van Vlymen takes you on his journey of how to LITERALLY... See in the Spirit. Wonderful and empowering book. Michael Van Vlymen eases you into the supernatural realm with grace and poise by sharing his hands-on experiences of his hunger for the things of heaven. Within only a few chapters, I began to have supernatural vision experiences; and, by the end of the book, my faith had been multiplied many times. You will enjoy this book with its ease of reading and its fun, short stories. I recommend this book to anyone who desires to see more of the spirit realm." - Elisha Hale

This book, How to See in the Spirit, is a record of the instructions Michael Van Vlymen received from the Lord Jesus about seeing into the spirit realm. When you learn to see in the spirit, your life will never be the same. Michael shares these simple, yet profound instructions with you the same way the Lord Jesus explained them to him. Michael shares not only the how, but the why of seeing in the spirit - and supports his teachings with scriptures throughout this book. Michael describes how many people see glimpses in the Spirit throughout their lives but have been dismissing what they see as their "eyes playing tricks on them." In this book, he helps you cultivate an awareness of the spiritual realm, so that you stop dismissing these glimpses into the spirit, and dramatically increase your spiritual vision.

In Michael's Own Words: "After the Lord Jesus had taught me about seeing in the spiritual realm, I wanted to teach everyone to see. Seeing the unseen changed my life and my Christian walk so profoundly that I wanted to share it with as many others as I could. It isn't a fantasy - everyone can have this!"

This really is something that ALL believers can have -

## Customer Reviews

My husband and I like to read books aloud to each other. When we began this book, we were both a little "put off" by the amount of time the author spends with God in prayer. We were discouraged, thinking how could we possibly do this much praying and sitting up late at night or in the middle of the night with God? We both have demanding jobs -- and I don't do well when I'm sleep-deprived. We thought, if this is what it takes to be able to see in the spirit, well, it just seems too unattainable. But the author's experiences were interesting enough to keep us reading. At the end, the author shares some things you can do, in a practical sense, to tune your eyesight into the spiritual realm and to get closer to God. This was quite helpful! I started practicing one of the exercises and started seeing "smoke" in my bedroom at night. The smoke is actually there -- every night. It's to the point now, that if it would go away, I guess I would wonder why. It starts at the floor and winds its way up toward the ceiling. I heard the Lord say "Where there's smoke, there's fire." It wasn't like a fog, but twisting, turning waves of smoke as if from incense or the smoke that comes from a candle wick after you blow it out. When I wave my hand through it, it moves, just like it would in the natural realm. My husband joined me in the exercise and we both saw stars in our room as if our ceiling was the night sky. I haven't seen an angel yet, to my knowledge, but look forward to going deeper and getting more tuned in to the spiritual realm. I appreciate this book much more now than I did at the start, needless to say!

In this book, Michael is sharing the path he followed to enable him to see in the spirit, and the points he makes are just the way it works with developing any ability - find those who have already accomplished what you desire to accomplish, immerse yourself in learning and practice, and the results will surely follow. Michael has listed a great list of resources to get anyone started, from good books, to videos and conferences. You can choose any method that you enjoy, and can afford to help you soak the information. You can pray for the gifts and you can benefit from impartation, by drawing on the gift from those who already have it. Michael spends a lot of time in prayer and in "waiting on the Lord" . He says for two years he played worship music in his home 24/7. In addition he read the Bible around and prophesied over the home and even people who aren't following the Lord, would see angels in his home. He shares a sample prayer. "Father in Heaven, I call upon the resources of Heaven. I call upon the angelic armies to minister in our household. Let the angels of the Lord manifest their presence and their power openly in our home. Father let the saints and the prophets, the men in white linen, the living creatures and the cloud of witnesses minister your will to our household. Let your light and your glory fill this place to overflowing. in Jesus' name." He'd also be fasting - a very important point - praying and fasting release the spiritual gifts faster.

Michael Van Vlymen provided his book free of charge. He walks readers through the Biblical process of actually seeing the extraordinary entities that exist around us and intersect daily in our lives. God has an army of incredible beings that exist to do His will and purposes in our lives. If you long to experience the supernatural workings of Jesus, let this book walk you through the spiritual disciplines ordained by God to get you there.

I heard about Michael R. Van Vlymen while watching a video by the beloved prophet Sadhu Selvaraj. Sadhu Selvaraj really inspired me in his teachings to wait on God and I wanted to learn more on this subject. I immediately order this book and it was an eye opener!! Many of my questions were answered on the practicality of waiting on the Lord. Michael did a fabulous job in taking on this subject with practical guidelines and his own experiences supported by lots of scriptures. I followed the teachings and searched the scriptures too, now I have begun to experience what he is talking about by waiting on the Lord in silence. This book is for those who hunger for a deeper relationship with the Lord and a deeper walk with the Lord. It is a waste of time to read this book and not put into practice the things Michael talks about. I'm really grateful to the Lord that this book was available at the time I needed it. I pray that the Lord bless everyone who reads this book and give you the grace

to go deeper in HIM. The Lord bless Michael and his family for sharing his experience with us. I hope to meet him one day :).

Michael Van Vlymen is a blessing. If he should read this... Thank You! Thank you for writing the way you speak... the way you pray... the way you think... who you are in Christ! God led me to this book after reading others that you mentioned in this book (I love God's confirmations!) For my brothers and sisters in our Lord; Michael moves in and out of his personal experiences and anchors them much of the time in scripture... as it should be. As for me, I am all in! Let's advance God's Kingdom, in the name of Jesus+

I am so thankful that the Lord prompted me to buy this book. Michael truly has a working knowledge on how to function in seeing in the spirit realm from a Christian standpoint. I loved his book and will be buying more of his books because his writings are so easy to understand and use in your walking journey with the Lord. I am currently writing a book called "Search for the Supernatural" and I can honestly say that this book has helped me in my examination of learning and being able to teach others on how to distinguish between a legitimate authorized walking in the supernatural and an unauthorized walking. Everyone, do yourself a favor and buy this book. Billy B.
