Customer Reviews

product as described and arrived on time

Kinesiology was not my best class. It was very difficult to study and learn. I did not like it at all for my labs. It did not help me at all. This workbook was the death of me.

Great book! Exactly as it said it was. Keep in mind, this is just the book with the activities and does not include the actual content for an Anatomy class

thanks for getting me through Kinesiology! The book itself has a lot of typos. but, hey, it helps you graduate.

VERY HAPPY WITH SERVICE, PRICE AND PRODUCT... RECEIVED A DAY EARLIER THAN EXPECTED/STATED ... THANK YOU :)

Great learning tool! I love it!

As expected

amazing
