Françoise Read has been stamping for over 12 years. She is a prolific craft designer, creating ranges for Paper Adventures, Woodware and Card Creations. Françoise writes and creates for various magazines including Crafts Beautiful and Practical Crafts.

no problems

I am an advanced stamper and while this book is great for those just starting out in the stamping world, you should get an earlier book of Francoise Read called, "The Rubber Stamping Bible" However, I think a good addition to this book, especially for beginners or those who are not

accustomed to doing mathematical conversions would be a measurement converter page because this book's measurements are all in Metric..

In addition to a 100 sample cards, it explains the differences in types of inks, types of stamps and explains techniques which is helpful to the novice stamper. I got it for a great price so it was definitely worth the money.

Great Book - Would recommend!

Needed a little more variety.

;))

Good ideas.

love the ideas for rubber stamping i bought it for ideas for rubber stamping..I like the pictures and ideas.
