As an adult I found this interesting; but, it was purchased for a classroom. Did not get this book until right at the end of our school year. A couple of kids read it and liked it. We were studying the United States at the time and it had weird facts about several states and they were able to use it in their bibliographies.,

Fun book that really teaches important facts.

It was a very good book that combined humor and taught geography in a fun interactive way .

My students love this book and I love how it teaches them facts in a fun way!
