Footsteps Of Israel: From Eden To The City Of God

Synopsis

Samuel Greenwood was a Christian Science teacher in Victoria, British Columbia. "Israel's unique place among the nations, as the guardian of the spiritual hope of the world, gave to her history a meaning and an interest which have never faded, and we find her today more conspicuous in the thoughts of Christendom than any other race or people, although largely in the sense of an extinct rather than as an existing nation. Yet the Scriptures state, in most unmistakable terms, that Israel is to return to her place in the family of nations and carry out the mission originally assigned to her, so that according to these Scriptural statements, we should think of this people not as hopelessly buried in the grave of oblivion but as about to enact the greatest chapter of their history. The restoration of Israel is the culminating event in Old Testament prophecy, an event which was not questioned but confirmed by New Testament writers; and we today should begin to open our eyes to the imminence and significance of its fulfilment, synchronizing as it does with the second advent of the Christ. The present is a period of fulfilment more than of prophecy. The final act in human redemption, and the closing scenes of mortal history, were long since foreseen and foretold, and we should now confidently look for the presence of that "Spirit of truth" whose coming was promised by Christ Jesus, and which alone can "restore all things."

Customer Reviews

I chose this book because I was looking for a guide to read the Bible from Genesis through Revelation. This book took me straight through with the basis being the development of Israel as a spiritual concept, not just a people or a nation. Its development is so clear and the end was a surprise, was novel to me but has changed my life!! highly recommend this book. It not for those who think inside the box of religiosity!
