ITMB Publishing (International Travel Maps and Books) of Vancouver, Canada, has published detailed reference and travel maps of countries, regions, and cities around the world since 1985. The company's titles include many that are unique or the first of their kind, including an extensive series of maps covering Asia (e.g. regional maps of India, street maps of Indian cities).

The map is very hard to read. Major cities are in tiny type face so I had to highlight and circle everything so I could quickly spot things. To make things worse, the gazette is in even tinier print, and spread among several sections of the map, so locating things on this map is a challenge.

Very large, very clear. Didn't end up needing it since I stayed mostly in Vrindavan, India--which was a small dot on the map. Worth the money, very durable.

Helped me traverse India via motorcycle. Showed the back roads too which was nice.

This map meets my needs for traveling in India

I like the map a lot. A suggestion is to keep both parts on the same page and stick the cities at the back. That way, you can pin it to the wall.

Hard to read. No great color coding like Michelin maps. Maybe Indian highways are logical enough to inspire good maps. Unimpressive. Have opened it once.

Very detailed map, just wish the whole country would have been printed on one side - not half on the front, half on the back

Worked great for our trip and for the driver we hired. The inset of New Delhi was nice for around the India gate area. Were able to keep track which was nice esp. since there are so few road signs where we were
