Customer Reviews

This a comprehensive textbook dealing with all aspects of palliative nursing care, including current knowledge with explicit discussions and practical guidance with extensive literature... This book is a leading resource in the field and will be particularly useful to nurses, oncologists and practitioners in a ll fields assisting their compassionate and important work.

Betty R. Ferrell, PhD, RN, FAAN, Research Scientist, Department of Nursing Education and Research, City of Hope National Medical Center, Duarte, CA
Nessa Coyle, PhD, APRN, FAAN, Pain and Palliative Care Service, Department of Medicine, Memorial Sloan-Kettering Cancer Center, New York, NY

This is a great resource for the hospice or palliative nurse. A new nurse can get answers as well as the long time hospice nurse. This is one that I keep in my library to be able to refer to as necessary.

This is the most comprehensive resource for Palliative Nursing that I have found! The contributors are well qualified. The information is current and very useful for Hospice and Palliative nurses. I feel that every nurse in this field should have this book at their fingertips.

The book is so complicated. Too many words on a page.

This book is everything I hoped it would be. It is probably the LARGEST textbook I have ever owned. I am going to be reading for a very long time.

This book is complete, covers a wide array of concerns and issues dealing with palliative care. Contains informations from experts across the spectrum. Extremely well written, informative and my bible for palliative care.

I did not use it for my class as much as I would like. There is a lot of content to get through, and I feel some of it is repeat.

Very helpful book

A wonderful addition to my Palliative collection. Easy to read and applicable to real life situations. This is a must have for your collection.
