Customer Reviews

From an era of vision casting in the church this work is very thorough in the topics covered yet at the same time gets bogged down in details. It is not a text book that reads like one. It seems out of place in the simple church concepts that church leadership is seeking in this era of 2017. It is

amazing how much has changed in such a short time. "Simple Church" by Geiger and Rainer on the otherhand has continued to be relevant in the quest to be pleasing stewards of God's provision of the church. Just over halfway through Unique I started flipping through the pages. It wore me out. There are some very helpful portions but for me they came early on.

This book offers some helpful guidance for developing a vision that leads to action rather than just looking good on paper. It lays out the groundwork for establishing the foundation for the vision and giving it a frame within which to develop. There are some good tips for communicating the vision as well. There is a lot of information here, and the process can seem complicated, so reading it slowly and/or more than once can help one digest the information better.

I recommend this book to anyone looking to improve the performance of you team, business or church. The concepts are easily understood and replicated without diminishing the unique qualities of your group or organization. A must read for Pastors of Ministry development.

Awesome book on the essentials of defining and redefining your unique "Mission from God." Book arrived earlier than expected... does a great job!

Will Mancini puts his visioneering process on paper. Biblical, practical, extremely helpful. Mancini delivers on his subtitle: "How missional leaders cast vision, capture culture, and create movement." Working his process is helping us discover and clarify our unique role in God's kingdom.

This book gives me the handles that I need to lead our church in the direction of momentum and traction. I can't wait to put into place and practice the principles laid out in this book. I recommend it for every church leader.

We all need to be stirred but toward a real better intermediate future as a God clears our path. This book is a great instrument in our hands for God to do just that.

Every church as unique is a foreign concept in the mega church/celebrity pastor/leadership conference world we live in today. Mancini reminds us that all those churches we want to copy today found their success by discovering their unique vision. Your church can begin to find its unique vision from the principles in this book. Distinction between mission language and vision language

was very good.
