Out Of Africa & Shadows On The Grass

Synopsis

Out of Africa: In this audiobook, the author of Seven Gothic Tales gives a true account of her life on her plantation in Kenya. She tells with classic simplicity of the ways of the country and the natives; of the beauty of the Ngong Hills and coffee trees in blossom; of her guests, from the Prince of Wales to Knudsen, the old charcoal burner, who visited her; of primitive festivals; of big game that were her near neighbors - lions, rhinos, elephants, zebras, buffaloes; and of Lulu, the little gazelle who came to live with her, unbelievably ladylike and beautiful. Shadows on the Grass: Isak Dineson takes up the absorbing story of her life in Kenya begun in the unforgettable Out of Africa, which she published under the name of Karen Blixon. With warmth and humanity, these four stories illuminate her love for the African people, their dignity and traditions, and the beauty and wildness of the landscape. The first three were written in the 1950s and the last, "Echoes from the Hills", was written especially for this volume in the summer of 1960, when the author was in her 70s. In all they provide a moving final chapter to her African reminiscences.

Customer Reviews

After obtaining the decade old movie, "Out of Africa" and watching it at least three times, I simply had to read something that this author had written and was delighted to discover that she had written a book with the same title as the movie. While the only mention of her marriage to Baron Bror Blixen was on the very last page of this book, written in a simple paragraph. I have yet to read a book, then see the film based on the same, and be able to say the movie is better than the book. The book gives more personal details and always provides more information. I enjoyed both but

must once again declare that the book is better!

I am updating this review as the digital book does not have these editorial errors. It was the sample that needed editing but I loved the story enough to order the kindle book anyway. I went back to the beginning and it is fine...so far. I no longer see the sample in my collection so it may be in edit process as I write. When I finish the book (1,100+ pages) I will probably give it 5 stars...but will wait. I read the sample and was immediately captivated by the descriptive language. I could visualize the scenery and see the people. Then, my heart broke. As I turned pages on the kindle edition, the next page began with with the last sentence or half of the last sentence from the previous page. Shame on you Random House. My spell was of course immediately broken. Either correct and resend this kindle edition or give me a credit which I will apply to the cumbersome but surely edited original translation in book form. I gave it 2 stars to say "don't judge a book by its unedited kindle edition".

A touching account written with some depth about others, but superficially when she was discussing her own life. Most authors wrote that way in her day so it's to be expected. (Thanks be to God that someone made it into a movie and John Barry wrote the theme music.)

Very good book. Would like larger type.

Fabulous book

One of my all-time favorites. If you live African adventures, you'll love Dinesen's real-life account of life on a coffee farm. Beautiful.

Bought this to have a copy in print that I can use to refer to specific examples of exceptional writing. Opening and ending 'narratives' are the most poetic prose I've ever read.

I read this for book club. Interesting, but it's not my usual genre, so I can't really recommend it.
