Adam McCauley has illustrated for magazines, records, and books. He lives in Northern California. This is his first children's book.

This is a beautiful book but is geared towards younger kids. It states up to 10 but I think you are pushing the envelope a bit with 9 - 10 year olds, especially if they are boys. I loved the guided pages to help a child recall memories that are meaningful. It is also great at directing kids on how to express their feelings. We bought this as a gift for a friend of my daughter's who lost his sister in a car accident. I am hoping they use it and it is meaningful to them. It is really a lovely idea and a great book.

I bought this book for my 6 year old daughter after the passing of her aunt, my sister-in-law. It has definitely helped her process her feeling. When she is feeling sad or missing her she gets her journal and writes and draws in it. It has pages to color pictures, write how they feel, and pages to

paste pictures of their loved one. I would say that this journal is probably for younger children. I would highly recommend this to anyone who has a child who is suffering from a passing of a loved one.

My son recently died @ age 39, leaving 2 precious girls & a loving grieving wife. I had hoped this book would help start conversation about their dad, but found it was too early & painful for them to do. I hope we can try again because I believe we must talk it out to heal. For me, I just can't stop crying.

As a partner to the adult version, this guided journal provides an opportunity for little ones to grieve in ways appropriate to their age and level of understanding. The prompts get them talking . . . the pages get them writing . . . the combination of the two is the recipe for healing.

I just bought this book and I would call it phenomonal! My kids will love using it to remember their beloved cousin. I highly recommend it to parents of kids who have lost someone close to them. It is sort of like a scrapbook with lots of room for journaling. It will be a treasure and keepsake for life.

Beautiful book and I was happy to see it in the children's version. Perfect for children who are close to someone who dies. Helps them grieve and come to terms with their emotions. Would be wonderful for parents to work on this with their children while their sweet memories of their loved ones are still fresh. Would make a wonderful treasure in later years!!

This book is for children to deal with the death of a loved one. Honestly I use it to deal with the loss of my grandfather. I'm an adult but a lot of the questions that children want answered are the same as the ones adult want to ask.

This book I bought for a friends 5 year old after the lose of his aunt. She called me and said Thanks you it was going to help him. I think it is the best thing ever.
