LEGO Star Wars Character Encyclopedia: Updated And Expanded

Synopsis

A New York Times bestseller and USA Today Best-Selling Book, this updated guide to the LEGO® Star Wars® universe comes with an exclusive Boba Fett minifigure and 72 new pages of minifigures and facts. StarWars.com says, "DK Publishing's fan-favorite tome on the minifigures of LEGO Star Wars is back with some Han Solo-worthy special modifications." LEGO Star Wars Character Encyclopedia: Updated and Expanded profiles more than 270 minifigures from the complete Star Wars saga. Discover incredible LEGO Star Wars facts, such as which minifigure is the rarest and which can be found in the most LEGO sets. LEGO Star Wars Character Encyclopedia: Updated and Expanded brings together the full collection of LEGO Star Wars minifigures into a fun and fact-filled book. LEGO, the LEGO logo, the Brick and Knob configurations and the Minifigure are trademarks and/or copyrights of the LEGO Group. ©2015 The LEGO Group. All rights reserved. "DK Publishing's fan-favorite tome on the minifigures of LEGO Star Wars is back â" with some Han Solo-worthy special modifications." â" [StarWars.com](#)

Awesome book for the Lego or Star-Wars fan. I am a collector of minifigures as well and so having the added kick of the Ralph concept Boba Fett makes this purchase a no brainer to me. The book for kids is great because it has good amounts of call-out boxes with fun facts and stories about the characters as well as really pretty pictures with an amazing amount of detail of each of the minifigures. It really brought me back to the days when I was first getting into Lego when the first Star Wars sets were also just starting to come out. The book covers all of the Prequels, the Original Trilogy, the Clone Wars cartoon, Rebels cartoon, and expanded universe characters (TOR, Force Unleashed, etc.). I was surprised at the coverage of the universe. Another nice thing is the fact that all new figures, when a remake of an older style, have pictures of the previous figure as well so that you can compare where Lego design once was to where it is now. Good book for anyone from young new padwans, to sage Jedi masters that is proudly shoved on my shelf between the previous Character Encyclopedia and the Lego Ideas book and considering the included figure resells for the same price as the book MSRPs this is a great "investment" to the Lego pile.

The book is comprehensive and includes a mini figure. Includes details about the figures - how they were distributed and variants of the same characters. A better deal than other sellers. The price and quick delivery made it a great decision to purchase. Was not given this product for free or at a

substantial discount to write a review. I appreciate reviewers admitting when they do that, but should abolish that policy. It is unethical and contributes to falsely positive ratings.

This is a book for casual entertainment and is not an exhaustive reference. Do not expect that it will contain photos of every Star Wars minifig every released (up the pub date) not accurately compare them. The photos that are here are good but a little dark and shiny, and the text is more for entertainment than description. It would have been better to omit the minifigure, which occupies 30% of the books thickness, and create a true reference volume. However, I bet most folks buy it for the exclusive figure, which is worth the price of the book.

If you are a Lego star wars fan then this is the book for you. It has pretty much all of the newer star wars minifigures. It shows the variants of each figure as well and tells you how many sets they can be found in or if they are exclusives. I really liked the figure that came with the book as well. I believe it was a snow version of Boba Fett. Along with each figure in the book it shows facts and other info about them such as if they are the only figure with a certain color or something. Overall this book is loaded with minifigures and for the \$13 I paid it is definitely worth it.

I would love to see something minecraft like this, but my son is really into minecraft and Star Wars like most boys his age. This is smaller than his other Lego Star Wars books in height and width but is thicker. It has a full page spread on most, if not all, characters. It also comes with an exclusive figure for extra fun! We bought this for him for a long car trip. He is getting into reading but I like that there are pictures to look at and he can read a page at a time without feeling daunted by multi page stories. DK is definitely one of our favorite publishers!

These LEGO books are great. Its a great book for my son who really likes to look at the figures. It outlines how many variants there are of it, what set they appeared in, details on why its unique and some fun facts. This is really for collectors or coffee table, but my son loves Star Wars and LEGO so it was a double win. Goes great with the LEGO Marvel or DC Encyclopedia Even includes a exclusive LEGO Minifigure in the cover. Can't really go wrong

I bought this for my 7 year old. We had picked it out at his school's book fair but he had to earn it and by the time he did (on the last day of the fair), they were out of it and didnt have time to order it. Since he had done what I asked of him to earn it, I said I would purchase it online and so I did. This

arrived promptly and we love it. He loves Lego and StarWars, so it doesn't get much better, except we went to Disney and after spending some time in Hollywood Studios with all the StarWars attractions, he's been reading through every page to find the characters! If you have Lego and StarWars lovers at home, this is perfect for them... they have fun with it and as an added benefit, it gets them to spend time reading vs on a screen!

My grandson received this for his birthday. He is six, and loved it! We spent time going through the book with him showing me different figures I had no idea who they were (guess it is from the comic version on television). It was so worth the money spent on a children's book. His twin sister certainly was enjoying the time we spent looking through it, too.
