The Complete Idiot's Guide to Publishing Children's Books by Harold D. Underdown and Lynne Rominger invites novices into its pages with plenty of white space, clearly labeled sections and humorous line drawings. Sidebars offer "Vocabulary List" words with definitions of industry lingo (such as ISBNs); "Stories from the Playground," with practical advice from published pros; and "Can You Keep a Secret?," with hints on a range of topics, including how to approach an editor at a conference and how to "write using active rather than passive constructions whenever you can." I read this book and I like the humor in it. It helped me to self-publish my books "Pray Today!" and "Ha Ha Ha!". However it also was fairly straight forward on the difficulty of getting a book published and getting a agent. With that information it helped me to decide to go the self-publish route.

Laid out and written well. Very helpful, still working on the project. Writing done, illustrations in the works. The process will be useful.

This is a great book that covers the process of publishing children's books. I am an artist and needed a resource in my quest to illustrate and write a book for children.

An invaluable resource!

A great guide to have and read. It helps inform you on publishing your books. I would buy it again.

great ideas and tips on how to get motivated and inspired into writing a childrens book, great way to educate yourself.
