Navigating The Career Jungle: A Guide For Young Professionals

Synopsis

Navigating the Career Jungle emphasizes the cornerstones of excellence, truth, honesty, ethics, hard work, respect, and continuing self-improvement for those wishing to experience success in their professional lives. As a young professional you just don't know what you don't know. Early on in your career, there may be a lack of realistic expectations in part due to popular culture that highlights the glamorous side of career growth without also showcasing the importance of hard work. This book is a guide that provides concepts to establish best practices in achieving career success.

Customer Reviews

As a young professional I highly recommend Navigating the Career Jungle. Navigating the Career Jungle teaches us how to fully engage ourselves as professionals into whichever career path we choose to take. Jacqueline covers Networking, resumes, interviews, personal branding (very important), self development, business relations and personal mentors which are crucial to jump starting any career. For anyone starting their professional career Navigating The Career Jungle is a great read for a jump start to a productive career. Very happy for the insight I gained from this book.

This book is an amazing read... It is ideal for recent college graduates, educational counselors, or anyone who is looking to advance in their career. The author encourages to pursue your career purpose by providing practical tips to advancing in your chosen field. From preparing for an interview/ meeting to advancing in your profession, this book is a great tool to add to your library.

This book is great for new college grads as well as professionals, like myself, that may not have been taught what & what not to do in the workplace. From landing a job (networking, resume, etc) to advancing your career (branding, leadership, etc), Jacqueline covers it all! I wish I had this book when I graduated from college...I truly think I would be much further along in my career! But it's never too late to use great information like this!

This book should be a go to guide for recent college graduates as well as young professionals starting their careers. The book has practical tips that will get any professional started on creating life long habits that will benefit them throughout their career. Its any easy read with a tone that anyone can relate to. Even seasoned professionals can benefit from reading this book. Bravo!

Great read for all professionals! "Navigating the Career Jungle"! This book gives a straightforward and realistic view to those looking to advance in their careers. It provides tips for success, help with planning for goals, and advice on expectations within the workforce. I thoroughly enjoyed reading this book and would highly recommend to others!

Whether you're just starting out in the career world or you're like me and looking for advice about how to take your career to the next level, this is the book for you! The most important thing the book does is it gives you great tips and steps to take in order to go in the right path.

This book truly gives the young professional a realistic preview of what to expect when taking on new career opportunities. This is the perfect guide to understanding the ins and outs without daunting the reader with too many trivial scenarios. I highly recommend.

The book was amazing. Whether you're a freshman in college or have just graduated. This is the guide for you. I personally have gained quality information from it and I'm sure everyone else will. I recommend this guide to all young professionals as well as already established pro's.
