Enemy Of The World (Main Character Hides His Strength Book 1)

Synopsis

Enemy of the world, cursed by all, Sungchul Kim goes on a quest to prevent the Prophecy of Calamities from coming to pass. But no matter how much he raised his strength, there were still some things he could not achieve with physical strength alone; Facing the Devil King of the 'Other World', Sungchul is forced to accept this fact. Resolving to obtain the power of magic, he goes into hiding to learn Magic from his most hated of enemies; The Mages.

this was a different feel for me. like i stepped into a story in the middle. so much has happened in the past that affects the story that i feel like i started in the wrong spot. the character are interesting and i will read book two but it wont be a burning need for me. the events were interesting and unique to keep me interested. sooo.... interesting but didnt feel complete.

I love this book, I can't wait for the next one to come out. The action the characters and the plot is something else. Even though the mc is over powered it's still a great read.

I'm sure more of Kim's back story will unfold in later books. Can't wait for the next one in this series!

The title says it all. The main character is way over powered. I love how he solves problems with a combination of over the top strength, brutality and focused wit. Definitely a fun read.

As far as reincarnation stories go there's better but there weren't any points at which I felt clueless as to what's going on.

Really enjoyed the work, can't wait for the continuation. I do hope it comes out sooner rather than later. Great translation work.

Have been following the novel since it's posted on the web. Good translation.

So the upsides:-An interesting world that while not overly fleshed out, teases the imagination well-Side characters who push the story along and have defined desires/goals-An OP Main character who is believably restrained due to the plot-Good job on translating (grammatical mistakes are there, but very few for a translation)The downsides:-World is too vague in many ways, even with plot critical things (ie: how you change you class with a charged alter done by a mage during an eclipse, but become an alchemist anytime, and tokens are needed because... they are)-Unlikable main character. You don't want to root for him because he is NOT a good guy. He happens to do a little good because the bad guys get in his way while he's doing what he wants.This book was a very interesting read for me because it has a world I don't see too often, and it is more driven by the side charaters than the MC; With that said, I just couldn't get invested in the book because there is little to like about MC Kim.
