Customer Reviews

Really great. Includes a comprehensive view of the origins of the Paleo diet. Truly a cookbook for beginners in the Paleo diet. Easy to read and follow recipes. A diet where I still get to eat the things I like is a huge thing for me, because it'll help me stay on it longer. I'm really excited to make these. A definite quick read and reference for all.

This is a great little introduction to the paleo diet. Tons of useful information for getting started. If you're just getting into the paleo lifestyle and you want a full rundown of what it's all about, this is the book for you. There are also a lot of practical tools included in the book. It includes an extensive list of acceptable Paleo foods, and the meal plans and recipes are very simple.

Little information about the usefulness of the Paleo diet. Where is the proof that good? Do you think it's reasonable diet in the modern world? I think that the evolutionary diets based on nutrition Paleolithic, are common fantasies. Nutrition and lifestyle of our ancestors is poorly understood at present.

I have friend who have talked about starting a paleo diet but I never really knew what kind of recipes would fall into that category. This book has a great, simple recipes that fit into the paleo lifestyle. I love that this book has images of what you will be preparing.
