# Introduction To Magnetic Resonance With Applications To Chemistry And Chemical Physics

## Book Information

Series: Chemistry series

Unknown Binding: 266 pages

Publisher: Harper & Row (1967)

ASIN: B0000CNLF1

Shipping Weight: 1.7 pounds

Average Customer Review: 4.0 out of 5 stars 1 customer review

Best Sellers Rank: #6,452,244 in Books (See Top 100 in Books) #99 in [Books > Science & Math > Chemistry > Chemical Physics](#) #67990 in [Books > Science & Math > Physics](#)

## Customer Reviews

This is a magnetic resonance text that has been out of print for many years. I have always liked the approach used by the authors and find that it still challenges students at the first-year graduate level. This particular copy is from the first printing back in the late 1960's. The binding is in excellent condition. The previous owner(s) have written most of their notes in the book using ink and it is annoying at times, but still very readable. I'm happy with this purchase.
