Customer Reviews

This was my first kindle single and also my first real read from this author. Found out about this through following him on twitter. I must confess, as soon as I downloaded this I sat and read it in its entirety before I could put down my phone (where I have my kindle app). Witty and just the type of humor I enjoy. I know I'll be re-reading this one and recommending to friends family and co-workers. Here's hoping he writes another soon! Well worth the 99 cents. What are you waiting for, go read it now! It will make you smile, and maybe stop to consider which one of these creatively imagined futures you think may come true. (One of my favourites - because I was most scared of it - was the

future concerning hipster aliens!)

Rob Kutner prepared you how to survive the end of the world with *Apocalypse How: Turn the End-Times into the Best of Times!* Now, assuming you followed his instructions, and well, since you're reading this review, congratulations on surviving! (So far, that is...) You probably want to know what happens next, so that's why you'll need *THE FUTURE ACCORDING TO ME*.-Figuring out how to react once the sun has finally reached the end of its lifespan-Where we found 16 1/4 of the 18 1/2 minutes of the missing Nixon tapes-Celebrating the fact that education is now free in the form of a Flintstones vitamin... IT'S ALL IN THIS EBOOK! SO, BUST OUT THAT DOLLAR BILL IN YOUR POCKET BECAUSE THE FUTURE AWAITS YOU! (I apologize if there *wasn't* a dollar bill in your pocket... there was a 50/50 chance, am I right?!)99 cents will get you 35 HILARIOUS mini-stories, but I wish there were more. After all, in *THE FUTURE*, you are immortal, so there's plenty of time to read! Wait, you didn't know about your future immortality?! Well, one thing I can predict is that *THE FUTURE ACCORDING TO ME* will be in your possession very soon. DON'T MAKE ME A LIAR OR THE HIPSTER ALIENS WILL COME AFTER YOU! Or maybe they won't. Whatever.But really, be wary of those hipsters because you don't know what they'll want next, SO GET THIS EBOOK! As the saying goes: if you read this, they won't come.**Also in the future: Cheesy altered sayings that should convince you to get this great ebook written by a very funny man.***Okay, maybe that's too specific, but emphasis on specificity will also be in the future.****Oh, and also in the future, there will be annoyingly long "P.S" disclaimer messages at the end of reviews.*****I'm sorry I'll stop now.

I don't think I made it more than 20 pages....couldn't get through it.

Not only is this very amusing, but there are some genuinely thought-provoking moments as well. It's perfect commuting reading, as you can dip in and out, but just as easy to read before bed as well - I did both. I must admit, I got a few looks on the subway when laughing a bit too loudly at times, but the glances were worth it and, as others have noted, it's easily worth 1/14 trillionth of the US national debt - I would even go so far as to say it's worth 1/13999(recurring) trillionth of the national debt. And that's saying something.

Some ideas were interesting but I felt that sometimes the point was lost by the use of too much language

This is a nice Kindle short--right about 850 Kindle locations, so you know with 35 different scenarios none are more than a page or so. Seriously funny look at 'what happens if' one particular incident, theory, event, political belief, religious belief or whatever rises. Well worth the download (cost and time of reading). And, if nothing else, we are invited to bang on his door in 40 years or so to say, 'hey, what happened????'. Thank you for the nice read! Highly Recommended! JTG

I claim to be a writer and got many thoughts and ideas from this book! As I said above, it's different. Rob makes much sense of the making up of words and the ease of the future, any future! This book is easy to read, well written, has few typos in it, and makes me laugh out loud in places! I will buy more books from him.

This Kindle single is just a few pages long but it's pretty funny. It's the author's ideas of several possible future scenarios that could happen to humanity. Some of the ideas are a little hard to follow (Kutner is very cerebral). It's a good, short book with several short funny vignettes. Worth your time to read.
