## Customer Reviews

A well made product that provides hours of entertainment for my kids (ages 6 and 3). I love all of their books and will be a repeat customer!

These books are incredibly interesting and fun. It has different black papers that when drawn (using special pencil included) will show up neon colors of hot pink, green, blue, orange etc. Will keep kids entertained for hours. LOVE these.

Simple for youngins but they do have to press down a bit to scratch off. My 6 year old boy can do it as he simply follows the outline already there.

The pictures in this book are very cute, and I like how there are picture you can color as well as the scratch off pictures. The only thing wrong with this product is the scratching tool it comes with does not scratch the black coating of very well. You have to push this very hard and even then it doesn't work that well. I've purchased scratch art before that includes a metal tool, I think something like would work much better.

Kids LOVE these!!

My grandson just turned 5 in June and got him this book. He sat down with it and that was all she wrote - he loves it. These books are such fun (have bought others for grandchildren)and they are a good value too.

My grandkids (and their parents as I see them drawing on these too) love these books. For the younger ones I prefer the pages that already have designs/figures similar to a coloring book on them to color in. Some of the Scratch and Sketch books do not have this coloring book designs and are black blank pages so note if the one you purchase does or has printed designs. The 13 years and older children prefer to do their own artwork designs and there are sketch books for them as well. I bought these to amuse the children on the airplane and later church and it worked great! They were busy, quiet, and happy drawing. A pencil type tool is included (just no lead in it). They loves to see what color is underneath the black. Plus there are a LOT of choices to choose from. Again note some have the coloring book designs and others are blank pages.

My son absolutely loves this!
