# Steven Universe Vol. 1

## Synopsis

**BELIEVE IN STEVEN!** Steven Universe is just your normal Beach City citizen...who is anything but normal! Join Steven as he learns not only how to save the day with the help of Garnet, Amethyst, and Pearl...but as he learns what it means to be a great friend and an even better neighbor! There will be crazy adventures any time of day when you live in Beach City, between bike races and late night karaoke, this is just the beginning for Steven! Written by the international indie all-star Jeremy Soare (A REMINDER, ADVENTURE TIME) and illustrated by the lovable and insanely talented Coleman Engle (REGULAR SHOW), STEVEN UNIVERSE is an exciting adventure that is only just beginning!

Publisher: KaBOOM! (July 28, 2015)

Language: English

ISBN-10: 1608867064

ISBN-13: 978-1608867066

Product Dimensions: 6.6 x 0.3 x 10.2 inches

Shipping Weight: 12.6 ounces (View shipping rates and policies)

Average Customer Review: 4.6 out of 5 stars 80 customer reviews

Best Sellers Rank: #70,460 in Books (See Top 100 in Books) #69 in Books > Children's Books > Comics & Graphic Novels > Media Tie-In #2711 in Books > Children's Books > Humor

Age Range: 8 and up

Grade Level: 3 and up

## Customer Reviews

Rebecca Sugar is an artist, composer and director who is best known for being a writer and storyboard artist on the animated television series Adventure Time as well as being the creator of the series Steven Universe, making her the first woman to create a show for Cartoon Network.

Nice, glossy pages, cute, dynamic artwork, and extremely charming story content - it's a much higher quality product than the whole "tie-in comic" thing would lead you to believe, and is definitely worth a look for anyone who enjoys the show or warm, thoughtful cartoons in general. The collection of alternative cover artwork in the final pages is a very nice touch. This volume has earned a seal of

approval from my nine year old niece, and I've enjoyed reading it with her - it's cute and good-natured without being saccharine, and it avoids the negatively juvenile mindset and humor common to a lot of childrens' media. Like the show, it manages to strike a tone that has potential appeal for kids and adults alike.

I love this! It has a lot of cute stories that play off the animated series. It provides "peeks" into Steven and the Gems lives between the animated episodes. I love this and can't wait for the next volume! It also includes the cover variations in the back which are beautiful to look at. The illustrations of the comics are great but the dialogue can be a bit hard to follow since the dialogue bubbles are a bit cluttered compared to other comic books. The content is not so serious that you need to follow the dialogue to the T though haha. It's great to have if you're a fan, or for future fans like your children or other young ones (both in age and at heart!) in your life.

This is a beautiful book. I love the individual full-color issue art at the back, and I appreciate how the characters' personalities shine through and match up to the show. Readers will enjoy if they're casual viewers or hardcore fans. As far as stories go, though, I don't believe the abruptly-ended issues translate as well as they do in the show. Episodes ending that way come off like a kind of anti-humor and they fall a bit flat on the page for the couple stories that end this way.

Cute and true to the TV show! The art is amazing.

As another reviewer mentioned, actual show is way better, story-wise. But having had similar experiences with the Adventure Time comics, I was kind of expecting it. I do not mean this is a bad way in the least, different writers so obviously it was going to be different from the show in some way. But they did a good job with the characters. I must admit I bought it mainly for the art and I was not disappointed one bit :) The art is amazing and the colors are vivid and so well chosen. Also the covers of all issues at the end are beautiful. Many great artists there. Highly recommended, for kids and adults alike!

Bought as a Christmas gift for my 14 year old sister and she loves it. The book is the Vol 1 of the comics of Steven Universe. The most interesting part of the book is that it has different artists which show different art styles. Very colorful book and my sister has enjoyed reading it very much. I will most likely purchase Vol 2 in the future.

I love the show and this book! I love the artwork! I'll definitely recommend this to my friends who love Steven Universe as well!

I liked this comic. This is for fans of the show and isn't something that can be read on its own. All are short, small, side events that don't go anywhere story wise. People who haven't seen the show won't understand who the characters are and what this is even about. The stories are like a day in the life of Steven Universe. Stories of Steven's life that are cute but not exciting enough to put in show form. That's not a bad thing, it's just mellow side stories that complement the show.
